

JANNY SPILSBURY-SCHAKEL

SUBJECT MATTER EXPERTISE

ABOUT ME

All-round Development Geologist with expertise in reservoir modelling, field appraisal and development, and value assurance for improved business decisions. Effective problem solver who identifies key issues and maintains a results-driven approach amid complexity.

QUALIFICATION

 Doctorandus (Drs) Geology
Vrije Universiteit Amsterdam

Field appraisal and development, assurance reviews of appraisal and development opportunities and project gate reviews across all phases: assess, select, develop, infield and abandonment

INDUSTRY EXPERIENCE

Oil Search

Senior Vice President Subsurface, reviewing appraisal and development opportunities in PNG and Alaska, responsible for company reserves bookings

Santos

Chief Geologist overseeing geoscience projects for Santos across all asset types and locations, with responsibility for mentoring and coaching

Woodside Energy

Continuous Improvement Champion, Development Manager, and Head of Development Geology. Led new opportunity development, performed technical reviews, built 3D reservoir models, and oversaw geoscience R&D

Senior geologist working for asset teams in Aberdeen, Western Siberia and Malaysia
